01 START HERE

How buying from WEBKMT works

No mystery pricing, no three-meeting warm-up. Here is the whole path.

Payments, plainly

- Methods: **IBAN, Western Union or crypto** — details come from a human with your quote, never from a bot or a PDF.
- Template files: 100% before delivery. Scoped services: typically 50% to start, 50% at delivery. Monthly/annual programs in advance.
- Taxes and third-party fees, where they apply, are itemised in the official quote.

Our refund posture (summary)

- Cancel before work starts: **full refund** of amounts paid.
- After work starts: completed milestones are payable; unused prepaid balance refunded within 14 days.
- Delivered template files are yours — non-refundable after delivery except non-delivery or unusable files (refund or replacement).
- Subscriptions cancel at the end of the paid period. The signed quote governs.

Every engagement, whatever the size

A written scope and official quote before work begins · a named human you can reach on WhatsApp or email · a handover so your team can actually run the system · your files, data and exports remain yours. That is the standard at USD 150 and at USD 1,400 alike.

02 DECISION GUIDE

Choose your starting point

Start where it hurts. Every station works alone and connects later.

If this is your problem…	Start with	Entry price	Typical time
Customers can't find you, or your site doesn't turn visits into enquiries	**WEBKMT Websites**	USD 150	2 days – 3 weeks by plan
Enquiries wait hours for a reply; leads cool off or vanish	**WEBKMT Chat** (pilot)	USD 300 + 29/mo	3–7 working days
You sell by chat and spreadsheets; you need a real store	**WEBKMT Store**	USD 899	1–3 weeks
Invoices, stock and customer records live in different places	**WEBKMT ERP**	USD 1,400 + care	2–6 weeks
Your team copies data between tools and chases reminders manually	**WEBKMT Automate**	Official quote	Scoped per workflow
You need campaigns and content run as a system	**WEBKMT Marketing** — in development	Partner enquiries	Early-partner basis

Not sure? Start with the free audit

Run the **Website Analyzer** at webkmt.com — instant, self-serve. Leave your details and a human-reviewed follow-up is targeted within 2 business days. Or book a 30-minute discovery call on WhatsApp/Meet and leave with a recommendation, whether or not it is us.

03

WEBKMT WEBSITES — AVAILABLE NOW

Pick a design. Choose how much we do.

Ready business designs in three plans — **the same three plans for every design**, so you compare designs, not price traps.

PLAN 1 — FILES ONLY

USD 150

one-time · files delivered

The template code files, delivered within 2 days of payment. Yours 100% — modify or resell them.

PLAN 2 — CUSTOMIZED FILES

USD 300–799

one-time · scoped on a call

We adapt branding and structure to your business before delivering the files. Two revision rounds included.

PLAN 3 — ULTIMATE

USD 800–1,599

one-time · managed first year

Customization, content writing, hosting, annual maintenance and minor edits through the year.

Included	Plan 1	Plan 2	Plan 3 Ultimate
Template code files	Yes	Yes	Yes
Branding & structure customized for you	—	Yes	Yes
Revision rounds	—	2	Scoped in quote
Content writing	—	—	Yes
Hosting (first year)	—	—	Yes
Maintenance & minor edits (first year)	—	—	Yes
You own the template after full payment	Yes	Yes	Yes
Typical delivery	Within 2 days	3–7 working days	1–3 weeks

Third-party components inside a template keep their own licences. "Minor edits" means small text/image/content changes (fair use up to 4 requests/month) — new pages or features are scoped separately. Exact Plan 2/3 price is confirmed in your official quote by pages, features and content.

04 THE DESIGNS

Template gallery — seven starting points

Each design is Arabic/English-ready with a WhatsApp enquiry path built in. Browse live previews at **webkmt.com/templates**.

Design	Built for
Clinic Pro	Dental, medical & aesthetic clinics that live on appointment enquiries — doctor/service pages, appointment-request path, location & contact sections.
Restaurant & Café	Menus, photos and a clear route from appetite to reservation request — digital menu sections, photo gallery, hours & WhatsApp.
Property Plus	Real-estate offices whose buyers scan fast — listing sections, photo gallery per property, WhatsApp enquiry per listing, agent profiles.
Salon & Spa	Salons, barbers & spas replacing phone-tag booking — service & price list, appointment-request path, staff profiles, visual gallery.
Catalogue Starter	A product catalogue that sends enquiries to WhatsApp — catalogue sections, featured offers, per-product enquiry. Full checkout lives in WEBKMT Store.
Services Pro	Law firms, accountants, consultants & agencies selling expertise — services & team pages, credentials, consultation/quote form.
Auto Services	Repair, rental & detailing businesses that need clearer job enquiries — service enquiry form, per-service price list, before/after gallery.

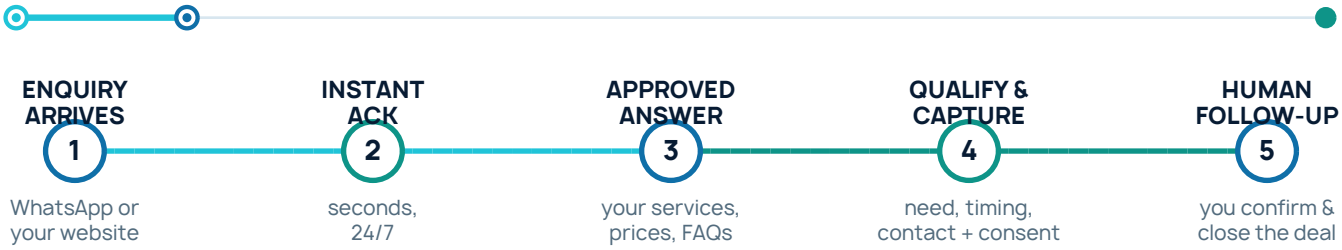

Can't find your business type?

Tell us on WhatsApp — we will suggest the closest current design or scope a custom direction inside the same plan structure.

05 WEBKMT CHAT — PILOT DEPLOYMENTS

Never miss or delay a customer enquiry

An Arabic/English AI receptionist on your WhatsApp number and website that answers instantly — only from information **you** approved — and brings a human in whenever it should.

SETUP

USD 300

one-time

Knowledge-base build from your approved materials (up to 20 documents / 100,000 words loaded), WhatsApp + website entry points, testing with real questions.

MONTHLY

USD 29

per month · fair use

Up to 5,000 inbound messages classified and 3,000 AI answers monthly, 4 knowledge-update batches, monitoring. Pilot terms confirmed in your quote.

Included

- ✓ Instant acknowledgement on WhatsApp and your website
- ✓ Answers grounded in your approved services, prices and FAQs
- ✓ Lead qualification and consent-based contact capture
- ✓ Appointment requests captured for human confirmation
- ✓ Human handoff — no message left stranded with a bot

Fair use, in the open

- 1 business · 1 WhatsApp number + website · 1 knowledge base
- Above the cap: acknowledgement, lead capture and escalation continue; AI answers pause until you approve an overage pack (**USD 9 / 1,000 extra answers**)
- Meta template/campaign charges, if any, pass through at cost — never bundled invisibly
- Never "unlimited" — sized honestly for SMB volume

Pilot honesty: WEBKMT Chat is in pilot deployment — hardened first on WEBKMT's own business, with every generated answer validated against approved facts before sending. Pilot clients get that standard plus human fallback from day one.

06 WEBKMT STORE — SCOPED IMPLEMENTATION

Sell online on a system you own

A complete e-commerce foundation (open-source Bagisto core) configured around your catalogue, payments and delivery — not a rented storefront theme.

STORE BASIC

USD 899

setup + 1 year hosting

Initial Store setup on our golden build and hosting for the first year. The starting point — scoped additions are quoted in writing.

ADD-ONS & MANAGEMENT

Official quote

itemised per scope

Payment/shipping specifics, extra features, content work, ongoing management and year-2 hosting renewal are scoped and itemised in your official quote.

The foundation includes

- ✓ Catalogue, checkout, customer accounts and order management
- ✓ Arabic/English-ready RTL–LTR storefront
- ✓ Multi-currency and multi-warehouse capable core
- ✓ Configured on your domain, with your branding
- ✓ Handover session so your team can run daily operations

Scoped per merchant (honestly)

- Payment gateway onboarding (e.g. Saudi options such as PayTabs/HyperPay/Tabby) uses **your** merchant accounts and approvals.
- Saudi requirements — registration, and ZATCA e-invoicing where it applies — are **validated with your business inputs** during implementation.
- A gateway or a platform never by itself makes a merchant compliant; your quote states exactly what is included.

07 WEBKMT ERP — SCOPED IMPLEMENTATION

One operating record for the whole business

WEBKMT configures the proven open-source **ERPNext** foundation around your accounts, warehouses, users, items and workflows — then keeps it running under a care tier sized by workload, **not by user count**.

In the system

- Accounting & invoicing
- Inventory & warehouses
- Sales, CRM & purchasing
- HR & projects where scoped
- Arabic/English interface with RTL support
- Your data on your own server

Setup — USD 1,400 flat

One flat implementation fee: installation on managed hosting, company/branch setup, users and permissions, opening data structure, core workflows configured to your operation, and team handover. Scope and timeline (typically 2–6 weeks) are confirmed in the official quote.

Care tiers — what "care" actually means

Every tier: managed hosting & SSL, scheduled security/version updates with post-update checks, **daily backups** with restore assistance, uptime/resource monitoring, break-fix support for the configuration we delivered, and user/permission administration.

	Essential — USD 59/mo	Growth — USD 119/mo	Scale — USD 229/mo
Companies / branches	1 company	Up to 2	Multi-company / branch
Backup retention	7 days	30 days	90 days
Support priority	Next business day	Priority, same business day	Urgent priority
Minor changes included	1 / month	Up to 4, or 2 support/config hours	Up to 8, or 5 hours
Reporting	—	Monthly health summary	Quarterly review & optimization
Resources	Standard	Higher	Higher-volume

Not included in care (scoped separately): new modules, custom development or integrations; data entry, bookkeeping or statutory filing; major migrations; third-party fees; POS/hardware; large training programs. Your tier is confirmed in the quote by workload and support needs — it is a support and resources tier, never a per-user licence.

08 WEBKMT AUTOMATE · WEBKMT MARKETING

Remove the repetitive work, then grow

Two stations, two honest statuses: Automate is delivered as scoped projects today; Marketing is in development and open to early partners.

WEBKMT Automate — scoped projects

- ✓ Instant lead follow-up on WhatsApp when a form lands
- ✓ Automatic payment reminders so nobody chases by hand
- ✓ Review requests after a completed job
- ✓ Weekly sales/operations summaries to your phone
- ✓ Document intake and structured task routing

Entered via a free audit/discovery. Pricing is per scoped workflow in an official quote — we would rather price the exact steps than sell you a "platform" you half-use.

WEBKMT Marketing — in development

A full marketing-management system (campaigns, journeys, content scheduling) built on proven open-source cores, held to the same productised standard as the rest of the route.

Early-partner enquiries are open. It is not sold as a finished package yet — partners shape the first release around real campaigns.

Also from WEBKMT

Beyond the packaged systems we accept scoped work across the same craft: building, managing, fixing or hosting websites, web apps and landing pages, plus AI enablement and business systemization. Feasibility and a fixed quote are always confirmed by a human first.

09 CARE & FREE TOOLS

Looked after after launch — and useful before you buy

Two kinds of ongoing value: care programs that keep systems healthy, and free tools you can use today with no account gymnastics.

Program	Covers	Response
Websites — Ultimate year	Hosting, maintenance, minor edits (fair use 4/month)	Human follow-up within 1 business day
WEBKMT Chat monthly	Operations within fair use, monitoring, 4 KB updates/month	Instant bot 24/7; humans within 1 business day
WEBKMT ERP care	Hosting/SSL, updates, daily backups, monitoring, break-fix, change allowance by tier	By tier — up to urgent priority
Store Basic	Year-1 hosting included; management/care quoted separately	Human follow-up within 1 business day
Existing-client outages	Treated as urgent priority, same-day attention	As fast as possible — honestly, not a promised minute

Free tools at webkmt.com

Tool	What it does for you
Website Analyzer	Instant audit of performance, SEO and accessibility — see what your current site is costing you
ROI Calculator	Estimate the return on a marketing or systems spend before you commit
Color Palette	Generate brand-ready palettes and export them for your designer
KMT Link	A clean link-in-bio page for your business under link.webkmt.com
Social Scheduler	Plan and simulate your posting rhythm

10 QUESTIONS

Straight answers before you ask

The questions every buyer asks — answered the way we would on a call.

Are these prices final?
Entry prices in this catalog are published and real: USD 150 / 300–799 / 800–1,599 for websites, USD 300 + 29/mo for Chat, USD 899 Store Basic, USD 1,400 ERP setup plus care. Anything beyond published scope — Store add-ons, Automate workflows, taxes and third-party fees — is itemised in your official written quote before any work begins. No package exceeds USD 10,000.

Do I own what I buy?
Yes. A purchased template is 100% yours after full payment — modify it, resell it. Your ERP data sits on your server, your store runs on your domain, and exports remain available. Third-party open-source components keep their own licences, as anywhere.

How do I pay?
IBAN, Western Union or crypto. A human shares the details together with your official quote — never trust payment details that appear anywhere else.

Is Arabic properly supported?
Arabic (Saudi/Gulf-friendly) and English across websites, Store, ERP and Chat answers, with RTL-aware interfaces. It is a first-class language here, not a translation plugin.

Is WEBKMT Store ZATCA-compliant?
No platform can claim that for you. ZATCA obligations belong to your business; during implementation we validate your registration, invoice flow and gateway setup with your inputs and scope exactly what is included. Anyone promising blanket compliance in a brochure is selling, not informing.

How fast will I be live?
Template files within 2 days; customized files typically 3–7 working days; Ultimate 1–3 weeks; Chat 3–7 working days after materials; Store 1–3 weeks after inputs; ERP 2–6 weeks by scope. Your quote confirms dates; the clock pauses while we wait for your inputs or registrations.

What do you need from me to start?
Logo/brand files, your content and product/service information, domain or account access where relevant, business registrations for payments/invoicing, and one decision-maker we can reach.

What if it isn't right for me?
Cancel before work starts for a full refund. After work starts, completed milestones are payable and any unused prepaid balance comes back within 14 days. Subscriptions run to the end of the paid period. The signed quote governs — summarised on page 2 of this catalog.

11 NEXT STEP

Tell us where the route breaks

Enquiries, sales, operations or manual work — bring the bottleneck. A 30-minute discovery call (WhatsApp or Google Meet) ends with a clear recommendation and, where it fits, a written official quote.

WhatsApp us
+90 501 361 7795 — replies 24/7

Prefer to look first?

Browse the template gallery and free tools at **webkmt.com**, run the free Website Analyzer on your current site, and talk to the assistant on our homepage — it answers from the same approved information in this catalog. When you are ready, WhatsApp **+90 501 361 7795** or email **info@webkmt.com**.

Checklist for your first message	
Your business type and city	So we point you at the right design/system
The problem in one sentence	"Enquiries wait overnight" beats a feature list
What you already use	Current site, tools, spreadsheets — anything
Your rough budget band	Under 300 · 300–899 · 900–1,799 · 1,800–4,999 · 5,000–10,000
When you want to be live	We confirm a realistic date in the quote

Catalog note: Systems Catalog 2026, November 2026. Prices are published entry prices in USD; the signed official quote governs scope, timeline, inclusions and any taxes/fees. WEBKMT Chat is offered as pilot deployments; WEBKMT Marketing is in development. Client identities are withheld for legal reasons.
